

ESG Strategy

FLAG ESG Vision Statement

FLAG aims to grow sustainably by creating positive outcomes for its customers, inspiring its employees, and enabling the communities where it operates to thrive through connectivity.

FLAG ESG Mission Statement

Protect our Planet

We aim to operate in an environmentally responsible and sustainable manner to preserve our planet. Our objective is to contribute to and promote a low carbon future within our industry.

Be an Employer of Choice

We will maintain a diverse, inclusive and supportive corporate culture that generates a positive work environment, rewards high performance and motivates employees to overachieve.

Be a Valued Partner

We aim to implement long term partnerships with our customers where we support their ESG ambitions, and they recognise our willingness to create a more sustainable world all together.

Enable Communities to flourish

We aim to promote social or economic improvements in the communities close to our HQ and in those communities that benefit from our connectivity services

Operate with Stewardship

We undertake to align our operations and business practices with global sustainability principles that support the UN Sustainable Development Goals.
